

HEALTH, SAFETY, ENVIRONMENT AND QUALITY POLICY

In our business to market pipeline and compressed natural gas to industrial and commercial customers, SLG (Pty) Ltd is committed to health, safety, environmental and quality best practices within the framework of our systems and company values.

To achieve this commitment, the SLG top management and employees, take every reasonable step to mitigate against any personal injury, negative impact on health, the environment or damage to property, minimize business and operational interruptions by undertaking the following commitments:-

- Promote, protect, minimize and manage Health and Safety risks to all stakeholders;
- Take proactive measures to protect the environment and prevent pollution;
- Set objectives to achieve the Health, Safety, Environment and Quality goals and implement a management framework to measure and manage progress towards these objectives;
- Comply with the applicable regulatory and other relevant legal requirements;
- Aim to do what is right and ensure consistent ethical behavior within the values of the company;
- To understand and consistently meet the expectations of the interested parties;
- Review the policy on an annual basis;
- Lastly, to continually improve the systems that manage Health, Safety, Environment and Quality by setting clear objectives, plans, measurable targets and allocating appropriate resources.

Mr. M. TYHOKOLO
ACTING CHIEF EXECUTIVE OFFICER
